MONASH

Student Evaluation of Teaching and Units (SETU)

Providing feedback with SETU

What is SETU?

- **SETU is simple.** It's an online survey enabling you to provide feedback on unit experiences and educators.
- **SETU assists** with enhancing the design and delivery of your units, as well as resources and other aspects that impact on the student experience of a unit.
- **SETU works** to improve learning outcomes for all Monash University students.

What impact does your feedback have?

Student feedback allows educators to make changes or improvements.

For example, if students request:

- assignment details
- lab and peer activity times
- direction for their final exam

Educators may respond by:

- providing more examples
- updating clinical lab sessions
- developing a practice exam

How SETU data is used?

At the University level:

- monitoring quality
- informing strategic planning

At the Faculty/Department level:

- address common areas of concern
- sharing good practice

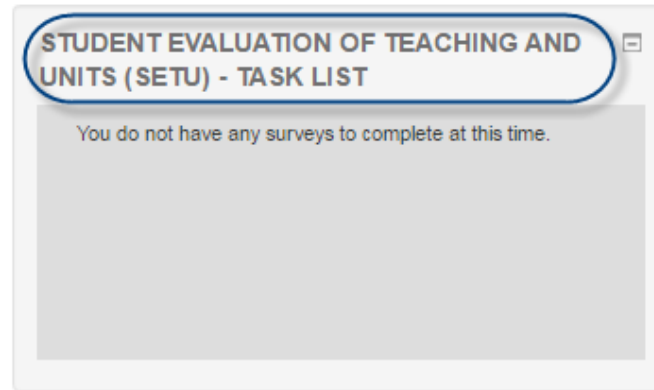

At Unit Coordinator/Educator level:

- monitoring student experience
- implementing relevant change

How to participate in SETU?

1. Access SETU via the Moodle block under your units.

OR

2. If you have units to survey you will receive an **email** with a link to the survey.
3. Access SETU survey landing page directly via:
<https://monash.bluera.com/monash>
 - Both access points will request you to log in with your Monash username and password.
 - Choose which **units** and **staff** to evaluate.
 - Select your **response**.
 - Provide your **comments**.

Confidentiality and SETU results

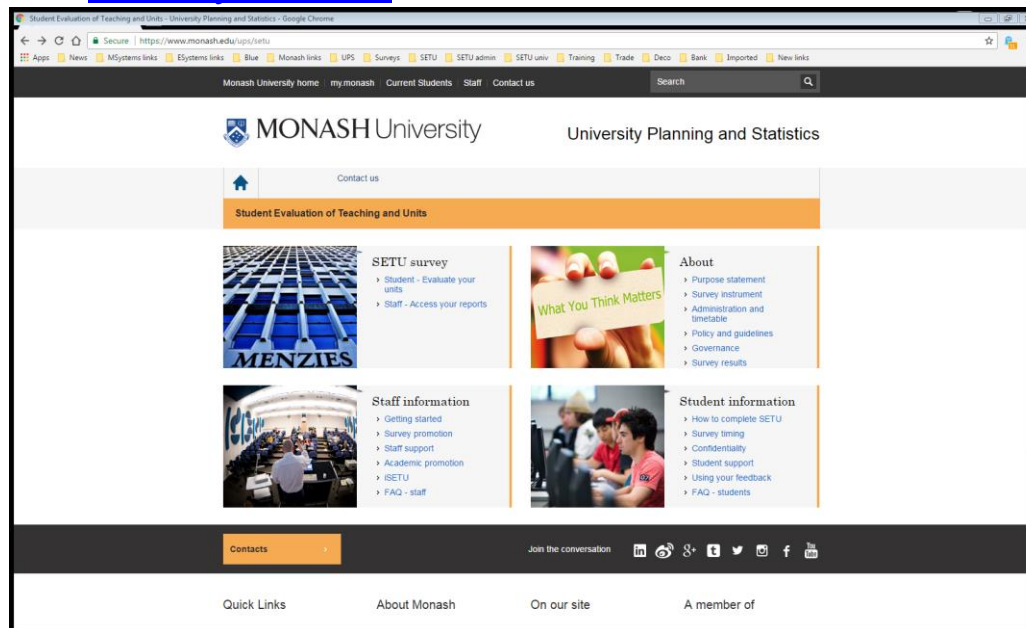

Don't worry!

Your **name and student ID are not included** in any SETU report. Be careful not to identify yourself within the comments.

Find survey results online:

Survey results are available on the [SETU website](#).

Click on the [Survey results](#) link to access results.

What are you waiting for?

Provide **your feedback** today!
